

**Job Title:** Integrity Engineering Consultant  
**Industry:** Oil and Gas  
**Location:** Aberdeen  
**Salary:** Dependent on experience  
**Job Type:** Permanent  
**Start Date:** ASAP

**Company:**

We are an advanced integrity and NDT inspection services provider predominantly working for upstream Oil and Gas operators. We provide leading edge integrity and inspection solutions focussed on the delivery of innovative approaches and technologies to maximise the value of inspection to clients in a fast paced consultancy environment.

**Job Summary:**

We are seeking to employ a qualified engineer to contribute to the expansion of our integrity consultancy projects with our clients worldwide. The role covers provision of engineering consultancy services, in the areas of equipment integrity, inspection, corrosion, data analysis and management. You will have the opportunity to work with the authors of industries standards and guidelines for the inspection of pressure vessels and pipework in an innovative, leading edge integrity environment. Responsibilities would include the following.

- Definition of inspection requirements
- Inspection planning
- Risk Based Assessments and Corrosion Risk Reviews
- Evaluation of inspection results
- Data analysis
- Assessment of anomalies including fitness for service assessment
- Reliability assessment
- Non-intrusive inspection (NII) assessment, planning and evaluation

**Qualifications/Experience:**

We are seeking a highly motivated individual who consistently produces high quality work. We expect candidates will have the following.

- A degree or equivalent qualification in Engineering or Sciences
- Experience of the application of NDT inspection in the Oil and Gas Industry
- Good organisational skills with meticulous attention to detail
- Excellent analytical skills
- Good oral and written communication skills with fluency in English
- Strong report writing and document preparation capability
- Strong presentation skills
- Attention to detail in reporting and document reviews
- Excellent working knowledge of MS-Office tools
- Willingness to learn new software packages
- Ability to contribute to the team but equally to work on own initiative
- A motivated self-starter, proactive, flexible and able to respond positively to challenge and ad-hoc requests.
- Strives for continuous improvement; brings solutions and constantly seeks new and better ways of work

**Benefits:**

Successful candidates will be offered an attractive benefits package, aligned with their qualifications, experience and capability. We offer a dynamic work environment with a focus on innovation and the opportunity to contribute to developments in inspection and integrity, working closely with clients in many of the world's leading companies.
